

Locally Sourced Produce:

In addition to my Own Grown produce I select local high quality produce which includes a wide selection of apples, soft fruits, broad beans, mushrooms & eggs. We also stock a range of Jams, honey, chutneys & pickles, together with a selection of freshly made cakes. Our own fresh lamb is available at certain times through the year, together with locally produced sausages.

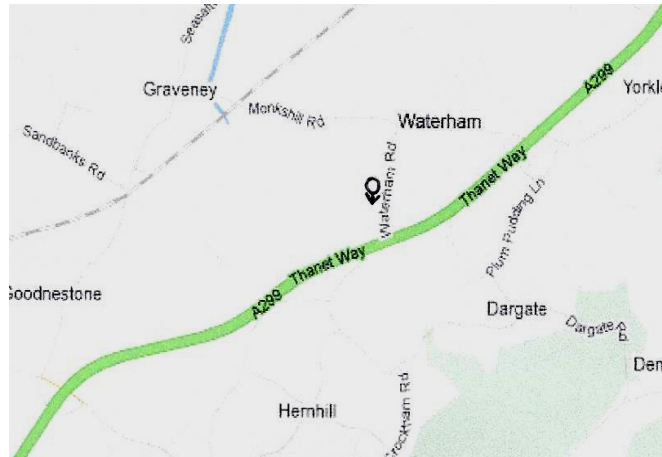

We also stock seasoned logs & manure, at competitive prices.

Waste

I pride myself in being environmentally aware and ensure that wherever possible farm waste is recycled. Green waste is fed to the sheep or composted. Waste oil is collected for recycling. Apart from the recyclable plastic punnets used in the shop, as a matter of principle, I will not use plastic on the farm, either in the form of polytunnels or as an aid to growing earlier crops or to increase yields.

Questions

Should you require more information on my farming methods or products sold in Mallards farmshop, please feel free to ask any questions you may have. Hopefully my staff and I will be able to provide an answer.
